

RAPID COMMUNITY AND POPULATION AGING

Populations and communities are rapidly aging across the world, especially in California and Los Angeles.

- California's older adult population will nearly double by 2030.*
- Los Angeles County's older adult population is already larger than the older adult population of 41 states. (Purposeful Aging Los Angeles Report, 2018)

Westside Pacific Villages, part of a movement of villages across the U.S., provides solutions to our changing society by prioritizing aging as a central focus for the community at large--ultimately to improve the quality of longer lives with continual growth, development, purpose, engagement, and enrichment.

*Ortman, J. M., Velkoff, V. A., & Hogan, H. (2014). An aging nation: the older population in the United States (pp. 25-1140). United States Census Bureau, Economics and Statistics Administration, US Department of Commerce.

*State of California, Department of Finance, State and County Population Projections by Race/Ethnicity, Sex, and Age 2010-2060, Sacramento, California, December 2014.

Sustaining a successful village requires continual coordination of volunteers, members, expertise, and partners. From organizing transportation to health and wellness programs, the impact of our efforts depends on the generosity of others. We appreciate and thank you for considering a meaningful tax-deductible donation and/or your ability to volunteer to help us improve the quality of life for more members in the neighborhoods of Westside Pacific Villages.

ABOUT US

Westside Pacific Villages (WPV) is part of a nationwide movement to redefine the way we age in our communities, and create more opportunities for people to thrive at every stage of life.

KEY VILLAGE COMPONENTS & COMMUNITY FEATURES

NOT A PLACE . A COMMUNITY.

A Village is not a facility or residence, it is a community of members and volunteers who live in different neighborhoods. In particular, **WPV** is made up of people living in the neighborhoods of Westchester, Playa del Rey, Playa Vista, Marina del Rey, Del Rey, Mar Vista, Culver City, Ladera Heights, El Segundo, Manhattan Beach and adjacent areas.

GRASSROOTS ORGANIZATION

WPV is a grassroots, membership-based, and volunteer-driven non-profit that organizes a variety of connections, support, and events--empowering people to better navigate the changes and opportunities that come with living longer. Our offerings reflect the interests, values, and needs of our members, and evolve as necessary to best reflect and enhance the membership experience.

VISION

At **WPV**, we believe purposeful, healthy, and active aging is possible when people in the community are connected in the spirit of collaboration and giving. Every day, **WPV** members and volunteers come together to share skills, expertise, and support for each other, creating new possibilities as we age.

SOCIAL LIFE & FRIENDSHIPS

Meaningful friendships can be enriched, and new ones can be forged between everyone in the village community when **WPV** members and volunteers come together and engage in shared interests, and enjoy one another's company through social events, group outings, and friendly visits.

HOME SERVICES & MAINTENANCE

Having a place to call home is essential for everyone. Village members live in a variety of settings. **WPV** supports many aspects of maintenance to ensure that every member's house, apartment, condo, or assisted living facility continues to feel like home.

HEALTH & WELLBEING

In today's world, aging requires more than good medical care. Discover more opportunities in wellness, preventive, and social activities to improve your quality of life and the community's wellbeing as a whole.

TRANSPORTATION

Village members are supported with transportation, providing the freedom to make plans, appointments, stay active, meet up with other individuals, and stay involved with their many interests.

SERVICE REFERRALS

Members can access information about local businesses and organizations that are trusted and recommended by other community members.

LIFELONG LEARNING

With the lifelong potential for personal growth, members have a variety of opportunities to learn about different subjects and technologies--simultaneously enriching individuals and the communities.
